

## INTERNATIONAL VIADUCT MAY BE BUILT FOR NEW STOCKYARDS

Cattle to Be Driven Across Viaduct Instead of Shipping Them Over From Mexico in Cars; Juarez Sausage Factory to Be Enlarged; Many Bungalows and an Apartment House Are Sold.

STEEL and concrete viaduct from the Mexican to the American banks of the Rio Grande may be built as a part of the big stockyard project which the firm of Morris & Co. is planning for El Paso.

To avoid the payment of switching and transfer charges on all of the cattle that comes across the international bridges in cars from Mexico, the tentative plans of the big stockyard project include a broad viaduct from the Mexican to the American side of the river east of El Paso over which the herds of head of Mexican cattle will be driven by the herders to the pens of the stockyards. This is only one of the big features of the company plan to build on the ground purchased in the Cotton addition.

**To Be Modern.**

In addition to the international viaduct, the company plans to build an exchange building on its property near the stockyards which will house the home of the inferior inspection, meat products which will be operated as a part of the El Paso cattle activities. The stockyards will be built substantially with concrete floors to the cattle pens, concrete cattle chutes and substantial brick and concrete buildings.

Another development in the cattle industry is the announced intention of the Juarez Sausage factory to enlarge its plant, to install inspectors who will work according to the United States department of agriculture meat inspection and to ship quantities of prepared meats through this port. Because of the inferior inspection, meat products have been barred from Mexico. But with the installation of the American standard of inspection, it is expected that the meat product plant in Juarez will become one of the large border features. It is the plan to kill many of the Mexican cattle instead of importing them to the United States for killing.

**Bungalows Are Sold.**

Mrs. C. C. G. has purchased a seven room bungalow at 230 Montana street, corner of Grant avenue, for \$7500. The bungalow was built and sold by the El Paso Realty company. It has sold to R. P. Herndon the five room bungalow at 2711 East Rio Grande street for \$1190.

J. C. Hanson and D. M. Conway have sold to J. H. Pollard 60 feet of the southeast corner of block 5, Alexander addition, on Mesa Street, for \$2500. Mr. Pollard will improve the property. The sale was made through Ramey Bros., who report the following sales: A. T. Manter to Clara B. Wakefield.

## PLACER MINING SHOWS REVIVAL

Floods Cause Cessation of Hydraulic Mining in Creek Beds.

Prescott, Ariz., Nov. 7.—Placer mining, which is experiencing a revival throughout northern Arizona, has been greatly hampered of late, particularly where dry washing is depended on to recover the gold. The rains have made the ground exceedingly damp and hard to handle. Most of the dry washing people, however, are busy digging out the gold bearing earth and piling it to dry, ready for the machines. Floods have caused a cessation of hydraulic mining in some of the creek beds.

**Plan Extensive Work.**

C. W. Talbot and J. J. Spencer, of Kansas City, principal stockholders in the Lynx Creek Placer company, are here making arrangements to commence operations on a large scale. Mr. Talbot, who is president, will devote all his time to the undertaking. The ground controlled by this company has been tested thoroughly and the installation of a big plant has been decided upon.

At the Venus mine a mill and cyanide plant are being installed and the treatment of ore will commence in a few weeks. A few months ago pockets of ore averaging \$100 a ton were found in the Venus workings. The mill being installed at the Dolph mine, on Turkey creek, will be in operation within two weeks.

## SMELTER FIRES UP ANOTHER FURNACE

Douglas, Ariz., Nov. 7.—The Calumet and Arizona smelter here has fired up another reverberatory furnace. This was done because the greater part of the work now in progress in the Calumet and Arizona mines at Bisbee is in sulphide zones.

## OPENS BIG LEDGE IN JUNIPER FLATS

Bisbee, Ariz., Nov. 7.—The Crown Point Mining company has opened a two foot ledge of gold ore running from \$10 to \$250 a ton in the property in the Juniper Flats, according to John C. Mader. A vein is to be set up at once for use as development.

P. Kelly and P. Flynn, both well known miners, are working the September Mine claims in the Ajo district of Pima county. The property is said to carry very high values in copper.

The ordinary cost of a Want Ad in The El Paso Herald is 25 cents. It reaches an average of about \$5,000 readers each issue.

## PUPILS WILL REHEARSE OPERA

Verdi's "Il Trovatore" to Be Sung by Children Friday Afternoon.

Verdi's opera "Il Trovatore" will be sung by the school children of the seventh and eighth grades, assisted by many prominent musicians of the city, Friday afternoon in the auditorium of the Lamar school.

El Paso's schools are unique in the whole country for featuring these operatic programs as a part of the music work of the schools. The idea was conceived about four years ago by Miss Alice Fitzpatrick, the principal of the Lamar school, with the purpose of familiarizing her school children with the best music in order to raise their musical taste to a higher plane and help the children to a better appreciation of good music. In carrying out this idea at first only the school children of the Lamar school took part. The children sang the principal choruses occurring through the opera. Mrs. W. R. Brown, of the Woman's club, narrated the story of the opera and some of the most prominent soloists in the city sang the most noted solos and duets of the opera. Three operas were produced in this way, Verdi's "Il Trovatore" was the first, followed by Wagner's "Tannhauser" and "Lohengrin."

**Results in Better Music.**

The results in the increased interest of the children in better music and their enthusiasm and interest in the opera programs was so very satisfactory and aroused so much interest all over the city, that for the opera programs last year the eighth grade pupils of all the city schools took part in the choruses. The "Tannhauser" was the second opera given last year.

Balfie G. Bohemian, of the "Flower" "Martha." As far as possible the Lamar school has purchased the records of the operas for the school phonograph and occasional concerts are given in the school rooms followed by a quiz in which the children decide the incident in the opera in which the song or chorus occurs, the names of the characters singing and the quality of the voices, whether alto or soprano.

**Train the Children.**

In all of the training of the children the operatic choruses, the credit is due to Mrs. L. L. Moore, the director of music in the public schools, and her assistant, Miss Laura Maude Pink. Mrs. Moore and Miss Pink have directed the chorus training for the opera to be produced Friday. Mrs. W. R. Brown will tell the story of the opera.

The program will open with the singing by the school children of the choruses "Legend," telling of the death of the Count di Luna's servant. Then the aria of "My Heart is in His Alone," will be sung by Mrs. J. K. Koster. Continuing the narrative of the opera, the school children will sing the "Ave Maria" and the "March of the Soldiers." Mrs. A. H. Goldstein will sing Azucena's dramatic solo, "Fierce Flames Are Raging." Matthew H. Lemen will sing the count di Luna's "Tempest of the Heart."

## NIGHT SCHOOL TO OPEN AT THE HIGH SCHOOL SOON

A night school will be started at the high school as soon as sufficient pupils have registered for classes. The night school will be held three nights a week, Monday, Wednesday and Friday, from 7:30 to 9:30 o'clock. C. A. Healy and S. O. Wehler will be the teachers. Additional teachers will be added as the need for them arises. The night school will teach subjects that may be demanded. All commercial subjects will be taught.

## "SKY JUICE" IS SHY DURING MONTH OF OCTOBER THIS YEAR

The total precipitation for the month in El Paso was only .80, according to the monthly meteorological summary just issued by N. D. Lane, of the local weather bureau office. This is unusually small. The highest precipitation in 24 hours was .45, on October 20 and 21, more than two-thirds of the total for the month.

There were 16 clear, 12 partly cloudy and three cloudy days during the month. The average hourly velocity of the wind was 9.5 and the maximum velocity for five minutes or longer, 45 miles an hour.

During the month of October the highest temperature was 85, on October 11. The lowest was 45, on October 28.

## S. P. SPECIAL OFFICER IS SLAIN BY A NEGRO

Maricopa, Ariz., Nov. 7.—Deputy sheriff Powers, known along the South Pacific in Arizona as "Maricopa Slim," was shot and killed by a negro, alleged to be an employee of the G. A. Barnes circus. Powers interfered in a fight between a negro and a white man, and Powers was fired several times, wounding the negro probably fatally. However, the negro returned the fire and Powers died three minutes later. Powers was a terror to bolshies, and had been in dozens of perilous situations.
